

Dear PSJHS Parents, Students, and Community,

The true focus of PSJHS is to provide the tools necessary for a child to become whatever his/her dreams may be. Education is something that no one can take away from an individual, which is why it is so important. Providing the right curriculum and support for both parents and students is a priority for us. We try very hard to work with each family individually to provide the essentials.

Curriculum changes often when our legislature deems it necessary, hopefully, with input from educators, such as our teachers and other leaders. With change comes anxiety and frustration for everyone. We have been going through changes in the last few years. Our teachers are continually being trained and given a multitude of resources to help make any transition as smooth as possible. We value input and suggestions to continually improve our school

As we move from year to year, please know that the teachers and staff are totally committed to providing a quality education for every child who enters the PSJHS doors. Questions, concerns, and suggestions are welcomed to ensure that our school grows.

Respectfully yours,

*Debbie Baxley*
